

7000 SERIES — AGILITY THROUGH FLEXIBILITY

AUSTRALIA'S BEST – SELLING MONITOR ARM

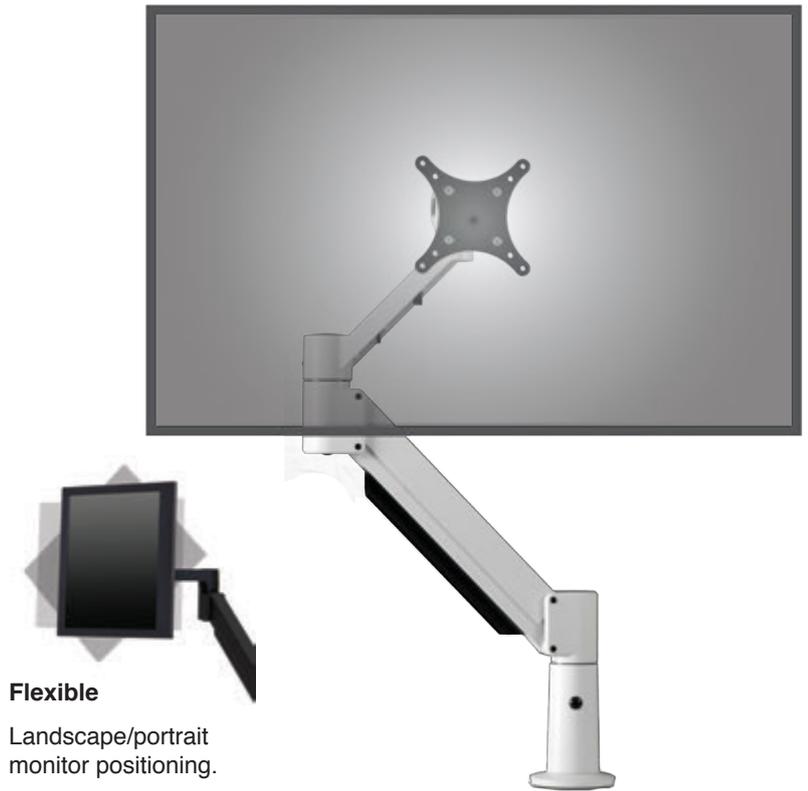

7000 series — agility through flexibility

Save Space

7000 Series will fold back upon itself to save space when not in use.

Flexible

Landscape/portrait monitor positioning.

7000 Monitor Arm

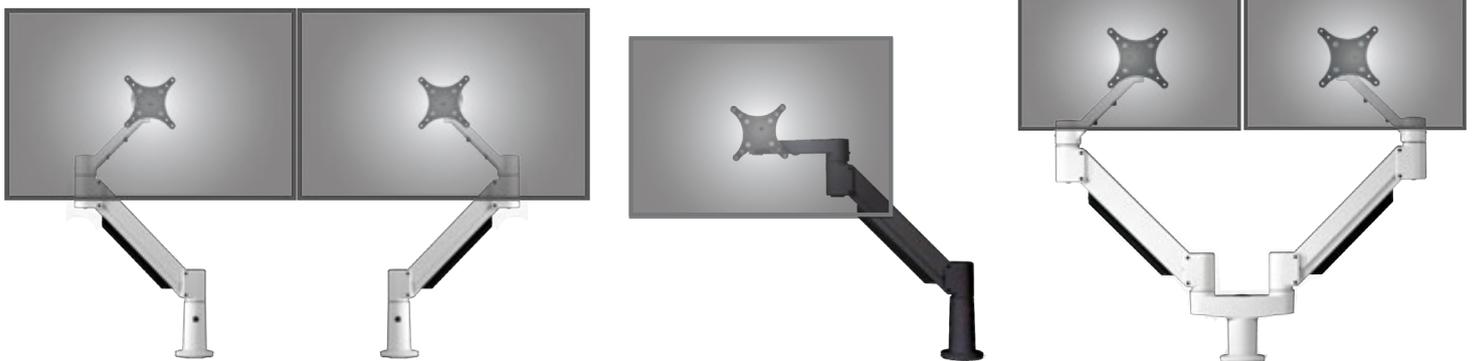

MODEL 62457-7000			
Max Height	Vertical Range	Horizontal Range	Weight Range

47.0cm	40.6cm	61cm	0.9-14.1kg

7045 Monitor Arm

MODEL 62457-7045			
Max Height	Vertical Range	Horizontal Range	Weight Range
↑↓	↑↓	↔	⚖️
54.1cm	34.8cm	55.9cm	0.9-14.1kg

The 7000 series is our most popular all-purpose arm. Suspends your monitor or device wherever your need it. Quickly reposition the device with fingertips.

- ▲ Allows for effortless user adjustments — vertical, horizontal and tilt.
- ▲ Suitable for all monitor sizes.
- ▲ 7000 and 7045 monitor arms are AFRDI certified.
- ▲ 7045 monitor arm offers additional vertical height range — ideal for a sit-stand environment.
- ▲ Gas strut “floats” monitor above desk— instantly raise and lower monitor.
- ▲ Includes FLEXmount™ with six mounting options, including desk clamp, thru-desk and wall mount.
- ▲ Available in 500n, 600n, 800n, 1000n and 1500n strength gas struts for various screen weight ranges.
- ▲ The 7000 series monitor arms are readily available in Black and White. Silver is also available.
- ▲ 10 year warranty.
- ▲ Made in USA by Innovative Workspaces and assembled in Australia.

Dual Mount

Dual 7000/7045 saves valuable desk space by mounting two devices to a single mount.

Accommodates two monitors or monitor and laptop/notebook tray combinations.

- ▲ Extremely flexible positioning of dual monitors.
- ▲ Position each device independently of the other.
- ▲ The dual mount can be clamped to desk edge or grommet, or bolted through the desk.
- ▲ Superior ergonomics and precision adjustment.

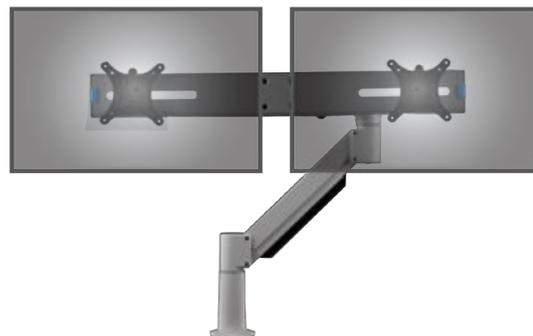

Laptop Trays

The 7000 Monitor arm and laptop tray combination floats above desk simply grab and move to desired position.

- ▲ Securely grips laptop or tablet PC, with quick attach and release.
- ▲ Instantly reposition for comfortable viewing.
- ▲ Counterbalanced with the weight of the device.
- ▲ Multiple tray types to suit different devices.

Switch Dual Monitor Bracket

Portrait/Landscape

Monitors can be positioned independently pivoted.

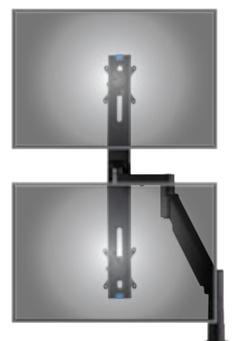

Combine our 7000 or 7045 series arm with the dual monitor Switch™ bracket. Quickly adjust monitor height in sync.

- ▲ Vertical/horizontal positioning (position monitors side-by-side or stacked one over another).
- ▲ Monitors can be independently pivoted.
- ▲ Internal cable management system-cables concealed in arm including swivel joints.
- ▲ Accommodates most monitors up to 60cm widescreen (monitor can not exceed weight capacity of arm).

Vertical/Horizontal

Monitors can be positioned either side-by-side or one above another.

Vertical/Horizontal

Monitors can be positioned either side-by-side or one above another.

Options and Accessories

Height Extender Tubes

Raise the height of your arm with the 5cm (2") or 15cm (6") Height Extender tubes.

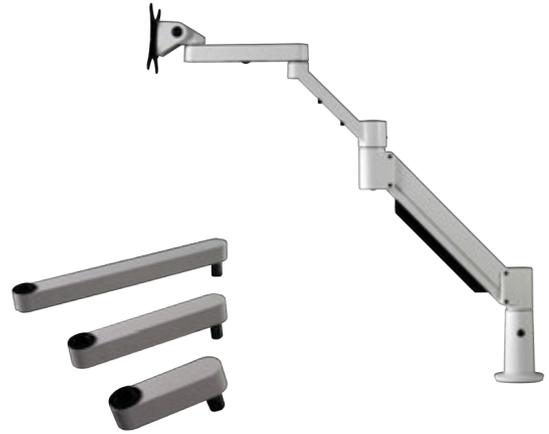

Increased range of height adjust on arm.

Does not impede 360° rotation.

Length Extender Segments

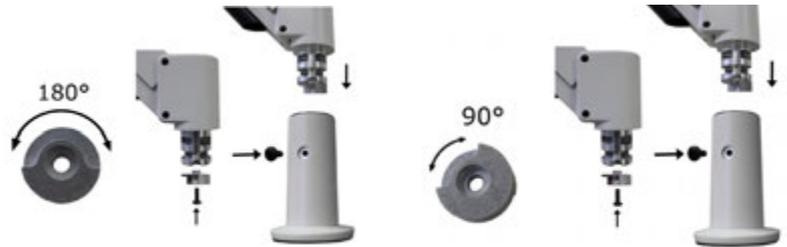

Extension segments can be added to the 7000 series and other monitor with the 10cm (4"), 21cm (8.5") and 32cm (12") lengths.

With Rotation Stop

Stop Rotation provision restricts the monitor arm from swinging 360° to 180° only, typically used with back-to-back workstations.

90° Stop rotation is also available.

What is a FLEXmount™ ?

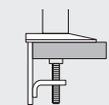

FLEXmount™ is a mount that offers six different configurations - all in one kit! This single mount will handle most mounting scenarios. Best of all, if you decide to change the way the arm is mounted several months after purchase, there is nothing more to buy - simply reconfigure your FLEXmount™

FLEXmount™ is ideal for mounting scenarios such as thick desk edges, desk edges with longer trim and surfaces with a small lip.

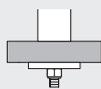

FLEXmount™ is included with all our Monitor Arms.

FLEXmount™ can be installed in these six standard configurations:

Desk Edge

Thru-Desk

Grommet

Wall

Reverse Wall

Side Bolt
