

## Actifeet tiltable footrest

Actifeet tiltable footrest provides comfort for your feet and legs while sitting. This innovative design allows users to keep their lower body active, by moving their feet in a back and forth rocking motion whilst seated. The non-slip base provides a stable surface and prevents slipping along the floor.

Keep moving while sitting - ideal for all users. Easy to clean, simple to use

---

**A tiltable and ergonomic footrest allowing constant motion.**

---

### Capabilities
