

Anti-Fatigue Standing Mat

The anti-fatigue standing mat has a soft, contoured polyurethane foam surface with a built-in roller ball, which allows you to exercise the soles of your feet while sitting or standing.

The soft but durable mat surface reduces pressure on feet and legs, while providing supportive firmness. The mat provides a comfortable surface to cushion and support your feet, knees and hips; and helps to reduce the risk of aches and pains during long periods of standing

The Anti-Fatigue Standing Mat makes standing work more comfortable.

Capabilities

- Dimensions: 700 x 540 x 70 mm

Features
