

Chair Mat for Hard Floors

The Hard floor key-shaped mat is designed to be used on hard surfaces like, timber, vinyl, tiles and concrete. The hard floor chair mat will help protect your floor against damage caused by castors and is also anti-static.

The clear vinyl mat provides a smooth riding surface for chairs. The mat is bevelled to make rolling on and off easy.

This mat creates a smooth surface to allow castors wheels to glide easily.

Capabilities
